

Route 1 Hampton Falls

Public Informational Meeting #2
July 15, 2021

New Hampshire
DOT
Department of Transportation

Tonight's Agenda

- Study Purpose, Schedule, Public Outreach
- Review Operational Problems
- What we have heard
- Workshop Session
- Wrap-up Exercise
- Questions/ Comments

Study Purpose

The purpose of the study is to identify potential transportation solutions aimed at addressing congestion and safety along US Route 1 in Hampton Falls.

This is a Planning Study. The objective is to identify a potential project or projects that can be added to the State's 10-Year Plan.

What are we hearing?

- Don't touch the Town Common
- Adjust the signal timing
- Remove the I-95 Exit 2 Tolls
- Build a by-pass through the marsh
- Widen Route 1
- Don't widen Route 1
- Replace Signals with a roundabout
- Coordinate with bringing water & sewer

Our Challenge

The **problem** (vehicle queuing) is experienced, for the most part, by motorists from outside Hampton Falls, while the potential **solutions** impact the community of Hampton Falls.

The Problem - Volume Exceeds Capacity

Reduce Volume or Increase Capacity

Reduce Volume

- Build a By-Pass, etc.
- Public Transit
- Transit to the Beach
- Dynamic Message Signs

Increase Capacity

(Balance Benefit and Impact)

- Full Fix
 - 5 Lane Section
 - Signal at Route 84
- Partial Fixes
 - Widen NB only
 - Extend Turn Lanes
 - Combine Intersections
 - Signal System Enhancements

Wrap-up Exercise

Do you think the Red Sox will win the World Series?

Practice Question

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support a 5-lane section?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support an additional NB Lane only?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support a roundabout?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support a single signal option?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support a Traffic Signal at Route 84?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support the relocation of Route 84?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support driveway access controls along Route 1?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support efforts to modify travel demand?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

Would you support improvements to bicycle/pedestrian mobility?

- A. Absolutely yes
- B. Probably
- C. I'm not sure
- D. Probably not
- E. Absolutely not

US1 Hampton Falls [29610]

Information and Surveys related to the Hampton Falls US 1 Study (NHDOT Project 29610)

Project Background

A Corridor Study for US 1 (2011) recommended improvements for US 1 through Hampton Falls but also recommended a more detailed local study to better understand how congestion could be addressed while maintaining the character of the community.

available files, and schedule information can be found on the project page for Hampton Falls 29610 at <https://www.nh.gov/dot/projects/hamptonfalls29610/index.htm>.

What we need from you

NHDOT and VHB are including a public involvement component in this project to gain insight on the existing problem and issues of importance to the community. **NH DOT will be conducting a series of 3 public information sessions to better understand the issues and priorities that currently exist, as seen by the community members themselves.**

Click the "Participate" button below to go to an active survey and enter responses.

Once you begin the survey, you can go back to any previous question by selecting "PREV". To move on to the next question or to skip any question that you wish to not answer, select "NEXT" or "SKIP".

If you would like to join the mailing list to receive updates and other information about this project, please enter your contact information below. Thank You for participating!

US1

Existing Conditions/Problem Definition (Spring 2021)

Collecting data on the existing conditions for the corridor, defining the problems, and understanding community concerns.

PLANNED

Alternatives Evaluation (Summer 2021)

Reviewing input on identified issues and concerns and developing improvement alternatives to address them.
